

Scope Plane

Client Requests (What they say they need)

- An online presence
- Somewhere fans and potential fans can see their work
- A way for fans and customers to contact them
- A way to integrate their social media sites for ease of access
- A way to arrange shows with fans

Developer Outlay (What they actually need)

- A mobile first responsive website
- An introduction to the band members and style of music
- A list of the bands previous work
- A way for people to contact the band to arrange shows
- Links to their social media presence

Down the line (What they don't know they need)

- Potential for an online store presence
- Potential for an interactive tour calendar that will let fans know what's upcoming
